HOSPITALS GREATEST MONTH

Its Usefulness in July a Record-Breaker—Steam Laundry Ordered—Mr. M. J. Corbett Resigns.

The past month of July was the greatest in the history of the five years' usefulness of the James Walker Memorial Hospital. This gratifying fact, although increasing the demands upon the hospital management, was evidenced by the usual monthly report of Dr. Joseph Akerman, surgeon in charge of the hospital, tendered at yesterday afternoon's regular meeting of the Board of Managers at the office at Messrs. Willard & Giles. There were present Capt. Walter G. MacRae, presiding; Mr. George R. French, secretary; Messrs. Wm H. Sprunt, Sam Bear, Jr., J. H. Rehder and M. S. Willard.

The report of Dr. Akerman showed 69 admissions during the month and a total of 1,517 days of treatment furnished, against 1,367 days in October last year, which was the record until July of this year. The increase in the work generally was notable. In the out-patient department there were 61 admissions and 202 dressings were furnished. The ambulance answered 53 calls, or an average of nearly two a day. The report was commented upon quite favorably by the managers yesterday afternoon, but at the same time, they recognized the difficulties of meeting the increased demands by reason of the expansion of the work.

A matter of sincere regret at the meeting was the resignation of Mr. M. J. Corbett, as a member of the Board of Managers. On account of pressing business engagements, Mr. Corbett was unable to serve longer. His resignation was accepted with expressions of greatest regret. Mr. C. W. Worth was elected unanimously to succeed him and the hope was expressed that Mr. Worth will consent to serve.

The absolute need of a small, modern laundry for the hospital was discussed at length. With an abiding confidence in the good people of Wilmington, a plant to cost $1,400 has been ordered and it will be ready for installation by early Winter at which time it is hoped that a sufficient number of public subscriptions will have been received to meet the cost. Thus far only about $90 is in hand, but there are some indefinite assurances and it is believed that the general public will respond with all that is needed when the matter is properly presented to them. The plant ordered is especially made to meet the demands of a hospital with sterilizers, dryers, etc. In the Winter, when it is important to dry linen and the like in the open air, the laundry plant and dry rooms will be absolutely necessary. The Board of Managers would be glad to receive any contributions to this worthy object.

CITY QUARANTINES

Wilmington Board of Health Adopts Precautionary Measures Against Contagion

MEETING HELD YESTERDAY

Proclamation by Mayor Places Ban on Travel and Traffic From Infected Districts—Guards Sent Out to Points of Ingress.

At a special, called meeting of the Board of Health, convened by Mayor Waddell at the City Hall yesterday morning at 11 o'clock, after a full discussion of the situation, the Mayor was directed, out of an abundance of precaution, to issue forthwith a proclamation declaring a strict quarantine against the city of New Orleans and all other places in the State of Louisiana or any other State where yellow fever now prevails, or may hereafter prevail, or be suspected of prevailing. The proclamation of the Mayor is published elsewhere in to-day's Star as an official advertisement. On the afternoon and evening trains special officers were dispatched to all junction points of railway ingress to see that the spirit and the letter of the quarantine law are enforced, which is now being done.

Those present at the meeting were Mayor Waddell, Dr. A. H. Harriss, Dr. C. T. Harper, Mr. M. W. Jacobi and Chief Quarantine Officer Robert Green. The yellow fever situation was fully discussed by members of the Board in attendance and the quarantine as subsequently proclaimed by the Mayor was agreed upon. Mr. Jacobi offered the following resolution which was unanimously passed:

"Realizing that it is necessary that we use every precaution to protect our city against yellow fever that is now prevalent in some of the Southern cities, in addition to the quarantine ordered, we wish to put our city in a perfect sanitary condition and in order to thoroughly and quickly do this work, we feel it necessary to have additional force and, therefore, recommend and ask the Honorable Board of Alderman and Board of Audit and Finance to authorize us to employ and furnish necessary funds for three additional health officers, four two-horse wagons and twenty laborers and five quarantine officers to be stationed: two at Florence, one at Hamlet, one at Fayetteville and one at Goldsboro, and the required disinfectants."

By recent order of the Mayor, all the city carts in the streets and wharves department were concentrated some days ago upon the work of putting the town in a thoroughly sanitary condition, but now that the need is more absolute, it is expected that the extra help will be put on at once. In fact, the three extra health officers will go on to-day and the extra laborers and wagons will be put on as soon as the conditions can be met.

Establishing the Quarantine.

Immediately upon issuance of the Mayor's proclamation the duties of putting the quarantine into effect devolved upon Capt. Green, who was soon at work. On the afternoon train Police Officers G. R. Holt and D. W. Willis were dispatched to Florence, two guards being required on the double trains between Wilmington and that city. Policeman H. W. Howell was dispatched to Goldsboro on the evening train, and Policeman E. L. Smith will leave this morning to take up his station at Fayetteville. Police Sergeant C. S. Burnett will temporarily have charge of the quarantine duty between Wilmington and Hamlet, being stationed at the latter point. These officers have instructions to board every train and accompany it as far as possible toward Wilmington, ascertaining the destination of all passengers and the point from which they come. Passengers from the infected district will be required to show a clean bill of health or will be detained 15 days before being allowed to come to Wilmington. The names of cities furnished to the guards are Mobile, New Orleans, Shreveport and Atlanta, the latter city being included because of its having thrown open its gates to refugees, according to common report. Of course, judgment will be used by the officers and each individual case governed as occasion may require. It is the purpose of the authorities to work no hardships upon the travelling public but at the same time to fully protect the health of the community. The railroads have furnished term passes to the guards and given them carte blanch on all trains to the end that the spirit and the letter of the quarantine may be complied with.

Order by Railroads.

The Passenger Department of the Atlantic Coast Line, on account of the prevalence of yellow fever in the New Orleans district, issued several days ago a circular stating that passengers travelling into the territory affected will be sold tickets subject to quarantine restrictions only and all passengers are advised to provide themselves with health certificates, showing their whereabouts ten days previous; such certificates to be issued by the State or local health officer, mayor or justice of the peace.

Assistance Asked.

Capt. Green will remain in the city and see that nothing escapes the guards on the trains and will also look after all baggage or freight that may come from the infected district. Railroad and express companies have been earnestly requested to aid in the enforcement of the quarantine and all residents are asked to use every effort to assist the authorities in preserving the best possible sanitary conditions. Any violation of the quarantine regulations will subject the offender to the severe penalties which are provided by law. The quarantine will be in force until further notice.

False Rumors Afloat.

Simultaneously with the issuance of the proclamation, false rumors were at once afloat of the appearance of suspicious cases of fever in the city at the sound and on the beach. There is or should be a law to silence the authors of such reports for which there is no foundation whatever. The action of the Board of Health was purely as a precautionary measure and there is absolutely no occasion for alarm or anxiety. The quarantine was even criticised by some as unnecessary and was justified only on the principle that a "stitch in time saves nine."

BASEBALL THIS AFTERNOON.

Array of the Faithful at Hilton To-day For Game.

Barring accidents and unfavorable weather conditions, there will be a great game of baseball on the Hilton diamond this afternoon beginning at 4:30 o'clock. As previously stated Fort Caswell will engage the Atlantic Coast Line strong team and there will be something doing to delight the most exacting devotee of the national sport. Capt. Grimes' soldier boys will be up from the fort early in the afternoon and will be prepared to put the home contingent to its best to retain its primacy.

Manager Morell has engaged Wilson to go in the rifle pit and Louis Moore will receive the grape and cannister that he will deliver over the plate. Grimes or Overby will doubtless man the disappearing gun for the soldiers and the railroaders will have to look well to their laurels against a pair of gunners like those.

Manager Morell announces the line up of his team as follows: Moore, catch; Wilson, pitch; McIntyre, first cushion; Green, second; Calder, third; Smith, in the inner garden; Miles, in left field; Tedder, in the centre uncut, and Morse, over at the gate. With hitters like Moore, Wilson; Calder, Smith and Tedder, the A. C. L. will be in position to put up a good game and wagers are already being placed at even.

WEEKLY TRAP SHOOT.

Hergenrother Scored 23 Out of 25, Leading—In the Doubles.

The sportsmen of the Wilmington Gun Club were much disappointed yesterday that the team from Southport did not come up to engage in the match with the locals. However, the regular weekly shoot took place and some very good scores were recorded as follows:

At 50 yards out of a possible 25: Davis, 13; Sanders, 17, 7, 9; W. T. Mercer, 6; Littig, 8, 8, 7, 14; Hengenrother, 17, 11; Howell, 13, 11; Warren, 14, 11; Peters, 10, 9; Holmes, 12, 14; Empie, 15, 19; Pickard, 16; Loder, 15; Boushee, 9. 16; Penny, 11, 15; King, 17; Dreher, 13.

At 40 yards out of a possible 25: Pickard, 16; Holmes, 17; Ahrens, 7, 9; Covington, 17, 10; Mercer, J. B., 5; Davis, 15; Steljes, 1, 9; Hergenrother, 23; Dreher, 16; Empie, 13.

In the doubles out of 12 pair the following scores were made: Penny, 23; King, 21; Pickard, 21; Dreher, 20; W. T. Mercer, 17.

ROBBERY AT ATKINSON.

Correspondent Gives Further Particulars of Wholesale Burglary.

A correspondent of the Star writing from Atkinson, N. C., of the recent wholesale burglary there says:

"A more daring crime has never been committed in the history of this place, nearly every home in the village being entered and possibly more than $200 stolen. Bloundhounds from Dunn, N. C., were wired for and were brought here last night, but were too late to accomplish anything in tracing up the fiends. Drugs must have been used liberally by the robbers as no one whose house was entered awoke during the time the robberies were committed. It has caused much excitement, but as yet there seems to be no clue as to whom the guilty parties are. There was a "private conveyance" travelling show here the night the robbery occurred and there is some suspicion as to accomplices of the "only two who manned this show."

Welcome I. O. O. F. Children.

The general committee of fifteen with Mr. J. T. King as chairman, and Mr. John E. Wood, secretary, met last night and completed all arrangements for the entertainment of the children from the I. O. O. F. orphanage upon the occasion of their annual visit here next Tuesday week, remaining in the city until the following Monday. The general committee is composed as follows: Cape Fear Lodge: L. L. Boone, M. W. Jacobi, L. W. Moore; Orion, C. D. Morrill, Wm. Simpson and A. T. Parker; Wilmington, J. T. King, T. G. Landen and R. J. Shepard; Hanover, J. E. Wood, E. F. Johnson and J. A. Jordan; Rebekah Lodge, Mrs. Jas. Lord, Miss Bettie Fuchs and Mrs. T. G. Landen.

Arrested on Suspicion.

Police Officer D. W. Willis, who is on quarantine duty between here and Florence, last night arrested on the incoming 11:45 P. M. train a negro believed to be one of the escapes from the Lumberton jail. The negro was found beating his way on the train and when taken in charge by the officer was accused of being one of the Robeson birds. He denied the accusation, but the assumption of the officer was later given color when the negro said he had been seut out himself by Sheriff McLeod to round up some of the escapes. The erstwhile deputy of the Robeson Sheriff was brought on to Wilmington and lodged in the station house, pending advices from Sheriff McLeod.

A PILOTAGE SYSTEM

Plan by Chamber of Commerce Embraced in Lease of Boat to Pilots

WAS EXECUTED YESTERDAY

Five Members of Old Association Will Operate "Calypso" on Co-operative Basis—Agreement as to Cruising and Etc.

Plans of the Chamber of Commerce for the establishment under its auspices of an adequate and efficient system of pilotage on the Cape Fear river and bar in lieu of all former laws governing the same, which were repealed by the last Legislature, appear to have been perfected at last in a contract entered into, signed, sealed and delivered yesterday, between the owners of the pilot boat "Calypso," recently purchased North by a corporation of Wilmington business men and shippers and five of the old and experienced Cape Fear pilots of the Pilotage Association. While the plan has been slow in materializing, it is nevertheless now in full force and effect and the promoters hope for the best of results.

The agreement, embracing the plan for the system of pilotage, was signed up yesterday by all the parties thereto and is between Mr. J. Allen Taylor, trustee, and managing owner of the pilot boat "Calypso" and Capts. J. W. Mintz, J. M. Savage, I. S. Davis, J. T. Thompson and A. M. Guthrie, pilots of the Cape Fear river and bar, stationed at Southport. Under the terms of the contract the five pilots lease the "Calypso" for a period of twelve months and indefinitely thereafter, without formal renewal, but, after the expiration of the first twelve months, either of the parties may terminate the same upon sixty days written notice, upon the condition that the boat is to be used in the service of piloting vessels over and upon the Cape Fear river and bar; that the pilots will actively cruise with the same at sea, to meet vessels approaching and leaving the bar and harbor; that they will give their active personal service in maintaining an efficient pilot service on the bar and river, and, individually and collectively, stand ready and prepared to convoy vessels in and out and over the harbor and bar, as fully and thoroughly as they may reasonably do to maintain an efficient pilot service; that they will victual and supply and man, at their own cost, the boat; keep her and her tackle, machinery and apparel in good order and condition, and at the termination of the lease, deliver her over to the owners in as good order and condition as the boat is delivered to them.

The pilots agree not to charge for the pilot service any amount greater than is set forth in the reduced published rates, recently promulgated by the Chamber of Commerce, which are made a part of the agreement. The rates are what are known as the "Savannah rates" and are from 10 to 25 per cent. lower than those of competitive ports. Report of service and all amounts collected are to be made to James Kyle, secretary of the Chamber of Commerce of Wilmington, who has the authority to collect and receipt for said pilot service as attorney in fact for both parties to the agreement. The amounts so collected shall be distributed at least once a month, or oftener as may be deemed proper, one-fifth of the gross receipts to the boat owners and four-fifths to the five pilots. The one-fifth paid to the owners is in full payment for the use and service and charter of the boat.

The boat remains in possession, control and management of the pilots during the lease or charter, or such crew as they may select, and the pilots will be responsible and accountable to the owners for her preservation, care and maintenance, accidents of fire and the sea alone excepted. The owners have the right at their option to keep the boat insured against fire and marine casualties. The owners or trustee shall at all times have the right to inspect or cause to be inspected the boat, and if the same be not kept in like good order as when delivered, then, in that event, the trustee shall have the right to take possession of the boat and terminate the contract.

In the event of the loss of the boat by fire or marine disaster that would involve the practical reconstruction of the vessel, the owners are not obliged to rebuild the same or substitute another boat, and the responsibility of the pilots, collectively and individually, shall be limited to the due care and prudence in the handling and maintenance of the boat as is usually observed by men of prudence in their like profession in the care and navigation of like boats.

In case of any disagreement as to the charter or contract, the same shall be submitted to arbitration, the owners and pilots each selecting one arbiter and the two, if not agreeing, shall elect a third, and the decision of a majority of the arbiters so selected shall be binding and conclusive upon the parties to the contract.

The contract is executed in duplicate and signed by Mr. Taylor, each of the five pilots and by Mr. James Kyle, who accepts the appointment as attorney in fact of the parties to the contract for the purposes therein stated and agrees to be bound by the terms thereof.

Died of Smallpox.

Yesterday afternoon the health authorities were informed that a child on Market, between Twelfth and Thirteenth streets, had smallpox. Dr. Harper quarantined the house yesterday afternoon, but was advised early last night that the child had died. The burial took place at once.

INSPECTORS CAN'T AGREE

Matter of Steamboat Collision Between Sea Gate and Wilmington has Gone to Supervisor of District.

It is learned upon unquestioned authority that United States Steamboat Inspectors Rice and Borden are unable to agree upon a decision as to the recent investigation of the collision of the excursion steamers Sea Gate and Wilmington, on the river here, and that the whole matter has been referred to Capt. Jno. W. Oats, supervising inspector of steamboats for this district, at his office at Norfolk, Va. The point of disagreement between the local inspectors could not be learned other than that a lot of technicalities are involved upon which both Capt. Rice and Capt. Borden desired the supervising inspector to pass.

Attorneys for both parties to the controversy were approached yesterday for a statement of the situation as between the local inspectors, but they preferred not to discuss the matter or give details until the decision is received from the supervising inspector, which is expected within the next few days. In the event of an adverse decision to either of the boat owners, an appeal may be taken to the Secretary of Commerce and Labor at Washington, under which department of the government the steamboat inspectors are now classed.

HELD FOR HOUSBREAKING.

Wash McNeill Before Justice McGowan Yesterday—An Alibi.

Wash McNeill, the young negro implicated by confession of Willie Jones in the burglary of the residence of Mrs. Henrietta Shepard, particulars of which are familiar to the public, was arraigned for preliminary trial before Justice W. A. McGowan in Justice Bornemann's court room yesterday. The prisoner was represented by Herbert McClammy, Esq., and introduced several witnesses to prove an alibi at the time of the robbery. He was driver on The Orton bus and summoned John Taylor, the well known hotel porter, and Mr. Jones, of the City Livery Co., to show that he was at his work when the burglary occurred. The implication by Jones, however, with the testimony of other witnesses, led Justice McGowan to hold there was probable cause and McNeill was sent back to jail in default of $50 bond for the higher court.

The boy is a son of Wash McNeill, a well-to-do and reliable colored carpenter who is fully convinced of his son's innocence, and has arranged to give bond for the defendant to-day.

NEW ADVERTISEMENTS.

Special Trial Offer
THE MORNING STAR
At Reduced Rates
To New Subscribers

For the next sixty days will mail THE MORNING STAR to subscribers outside the city at the following reduced rates:

FOR ONE YEAR $4.00
FOR SIX MONTHS $2.00

Positively, no subscription will be taken at the reduced rates for a period less than six months. For one month the price will be, as heretofore, $1.25 for three months; or, fifty cents for one month.

This offer, as will be noted, is for a limited period only, and is made for the purpose of giving those who appreciate the value of a daily newspaper an opportunity to read the STAR for six months, or more, at a cost of about one and a quarter cents per copy, and then determine whether or not they will continue their subscription at the regular price.

No name will be entered on our books under this offer unless the order is accompanied with the cash.

While this proposition is made primarily to secure new subscribers, old subscribers outside the city may avail themselves of its advantages at the reduced rate provided they pay all arrearages and for not less than six months in advance.

On account of the heavy expense attached to our city circulation department this offer does not apply to city subscribers.

Sample copies mailed free to any address.

Note the conditions of this offer carefully to avoid mistakes.

A PROCLAMATION.

Wilmington, N. C., Aug. 4, 1905.

A strict quarantine is hereby declared against the city of New Orleans, and all other places in the State of Louisiana or any other State where yellow fever now prevails, or may hereafter prevail, or be suspected of prevailing.

No persons or baggage from said places will be permitted to enter the city of Wilmington, except after such detention and under such regulations as may be prescribed by the Board of Health of the city of Wilmington.

All railroad and express officials, and all persons controlling transportation of any kind are earnestly requested to aid in the enforcement of this quarantine, and all residents of the city are asked to use every effort to assist the authorities in preserving the best possible sanitary conditions, for which an extra force has been employed.

Any violation of the quarantine regulations will subject the offender to the severe penalities provided by law.

This quarantine will be in force until further notice.

WILMINGTON, N. C.

Saturday Morning, Aug. 5.

FEDERAL QUARANTINE THE REMEDY.

When the yellow fever broke out at New Orleans it was kept a secret or the health authorities there were in ignorance of it until experts representing Mississippi went over and pronounced the suspected cases yellow jack. A few days afterwards came the slow announcement of the New Orleans health department confirming the Mississippi expert's diagnosis.

The situation as developed caused Governor Vardaman to fly up and hurl some stinging criticisms at the health officials of Louisiana about their criminal neglect, inefficiency, etc., whereupon he riled up Governor Blanchard, of Lousiana, who had some sharp if not acrimonious correspondence with Vardaman. The New Orleans Picayune, taking sides with Governor Blanchard, alludes to the Mississippi Governor's criticisms as "the wild and frantic behavior of the Governor of Mississippi on the subject of yellow fever and quarantine." The Picayune further remarks:

"The injurious and almost criminal allegations made by the Mississippi Governor against public officials in this State of the highest respectability in regard to their fidelity to duty and to official and professional trusts are unworthy of the dignity of the Chief Magistrate of a great State."

We don't know but what Vardaman will be endorsed by most all the sections which are liable to visitation by yellow fever. At any rate Governor Vardaman will be excused, for a yellow fever scare is liable to make a man do and say most anything. He is laboring under the same excitement that will make men adopt the shotgun quarantine, and hold-up and send back people who are fleeing with their lives from pestilence.

After the controversy between Vardaman and Blanchard had simmered down, a worse conflict arose. The Mississippi Governor got busy with his mosquito fleet to enforce quarantine against New Orleans. It is said that the Mississippi squadron invaded Louisiana territory and captured Louisiana boats and citizens and put them under guard in a detention camp. Governor Blanchard had too much military spirit in him to let Vardaman "cross his path" like that and so he sent his mosquito fleet to the scene of hostilities, armed with Colts' rapid fire guns and howitzers to put an end to Vardaman's aggressions. The dispatches have indicated that there was liable to be a serious conflict between the fleets of the two States, and a foreigner reading the news might conclude that Louisiana and Mississippi were about to go to war.

Of course the whole thing is ridiculous, and that incident and the shotgun quarantine system has only served to show that the Federal government should take hold of situations like that at New Orleans. We know what prejudice exists in the South against Federal encroachment, but where several States are concerned, and North Carolina among them, there is every reason and deep conviction that the government should assume charge of all quarantine matters and enforce the regulations. The New York Herald takes this view of the question:

"The Federal government must take absolute charge of the situation and manage all details in its own way as a centralized power. The Marine Hospital Service, which is also the National Health Board, is the proper authority to adjust all matters in dispute and to properly systematize all necessary details of sanitary management. The leading business men of New Orleans have pronounced themselves in favor of this, and all that is now necessary is for the general government to give the requisite order. There is no need waiting to adjust a quarrel between State Governors. This is a time of dire emergency, and prompt, stringent, comprehensive and radical measures are necessary not only to restore public confidence, with ready and willing means at hand, but also in this way to prevent a still further and more alarming spread of a most threatening plague. By all means, then, let the National Health Board take immediate control of the situation."

We mean no harm but we would like to know how Associate Statistician Holmes kept from being caught laughing every time he turned on the cotton leak and thought of Secretary Wilson's unsophisticated confidence that a leak in such information was a matter of impossibility.

CURRENT COMMENT.

—Some funny fellow will probably refer to the meeting of the peace envoys as an august gathering, simply because they didn't wait until September.—Baltimore Herald.

—Just for convenience Russia might arrange to have the commanding general at Vladivostok court-martialed before the siege begins and so get the thing out of the way.—Chicago News.

—Wall Street complains that it is not prosperous. That is a confession that the public is keeping out of the game. When Wall Street languishes the rest of us save money.—Birmingham Press.

—The Moros who spent last summer at the St. Louis Exposition are now reported to the chief fomenters of trouble in the Philippines. More proof that the St. Louis habit is contagious.—Washington Post.

—Tobacco is a terror, but just remember that simply crossing the knees causes sciatica, lameness, chronic numbness, ascending paralysis, cramps, varicose veins and some more things.—St. Louis Post-Dispatch.

—The leak in the cotton statistics, according to Secretary Wilson, was discovered because "two gamblers in New York got into a quarrel over a woman." There is always a close connection between cotton and calico.—Washington Post.

—With eight of our battleships lying handily about in these waters, when they visit Oyster Bay the Russian and Japanese peace envoys will have an object lesson before their eyes of a nation that speaks softly and carries a big stick.—New York Mail.

—If Mr. Cleveland did much for Daniel Lamont, few people not on the inside of things know how much Daniel Lamont did for Cleveland. He was a very capable, suave, and adroit lieutenant, as he was a genial, companionable gentleman.—Hartford Courant.

—There is a dispute as to whether John Paul Jones, Commodore Barry, or Esek Hopkins was "the father of the American navy," but it doesn't matter much. They were all ornaments to the service, and the country is rich enough to give them all fitting monuments.—Philadelphia Inquirer.

—In view of our smallpox scare and the uneasiness it causes, it will be a wise measure of precaution for our city authorities to require a general vaccination. Happily, the stupid prejudice against vaccination is fast dying out among all classes, and the most ignorant have begun to realize what a priceless boon it is to mankind.—Richmond Journal.

—It is surprising the way our western North Carolina people have of moving to the West. Every year large numbers go from the mountain regions. The exodus has already begun from Morganton, $600 worth of tickets being sold there in one day. These Tar Heels are of the opinion that they can better their condition by going toward the setting sun and beginning life anew as it were, but in many cases this is a delusion.—Charlotte Observer.

TWINKLINGS.

—Clergyman—Are you satisfied, madam, to take this man as your husband? Bride-to-Be—Well, not quite, but he's the best I could get.—Life.

—The man who hurries along the street is likely to be overcome by the heat, and if he goes slow an automobile may run over him.—Toledo Blade.

—"He's got a mean disposition." "What makes you think so?" "I told him I wanted to learn how to run an auto and he didn't offer to loan me his."—Cleveland Plain Dealer.

—"I make a chum of my father." "I could never do that with mine." "Wouldn't he like it?" "He might, but ma wouldn't. I'm usually out till after midnight."—Houston Post.

—Saleslady—"Five cents worth of candy; didn't you used to get five pounds?" Gent Customer — "Yes." Saleslady—"Oh, I see. You've been getting married."—Philadelphia Telegraph.

—"Why don't you make some ringing speeches against the trusts?" "Nothing to gain," answered Senator Sorghum. "The public wouldn't believe I meant 'em and the trusts might."—Washington Star.

—Gilded Capitalists—Who wants to see me, Jones?" Jones—Sauve looking person, sir, with a lot of proof slips and a gilt-edged memorandum pad. Gilded Capitalist—Give him $500 and tell him I don't want the book.—Cleveland Plain Dealer.

—Towne—I've got a bid of Dumley's wedding, and I'm blest if I know what sort of gift to send him. Browne—Who's the lady in the case? Towne—Miss Kulcher, of Boston. Browne—Send him an unabridged dictionary, or, better still, an eyclopedia.—Philapelphia Press.

—"Just to think," remarked Mr. Stubb, stirring his coffee thoughtfully, "of the Russian battleship Kniaz Potemkin cruising around with a red flag at the mast!" "It was rather unusual," remarked Mrs. Stubb. "Who cares to buy a battleship at auction?"—Columbus Dispatch.

NEW YORK STOCK MARKET.

Upward Flurry Because J. P. Morgan is Back From Europe.

By Wire to The Morning Star

New York, Aug. 3.—Professional operators had the stock market to-day and material to affect prices seemed to be scanty. It was sought to convey the impression also that the return to the financial district of J. P. Morgan, who appeared at his office today after his return from Europe, might be fraught with consequences to Reading and the Erie. The same impression was made to do duty as an explanation of the strength of Southern Railway and so was carried in the sphere of the Southern Railroads. This movement was the more remarked on account of the growth of obstacles to traffic in Southern territory by yellow fever quarantines and the further deterioration in the condition of the cotton crop shown by the government report of today. The firmness of the United States Steel stocks was also attributed to the Morgan influence together with the continued favorable reports from the industry. The ore and metal industrials showed the continued effect of the persistent assertions of the working out of a merger plan. The Southern railroads were also the subject of some rumors of a proposed holding company for joint control. The great public interest shown in the approaching peace negotiations was fully shared in the financial district but without appreciative effect on the market for stocks here.

Weather news affecting the grain crops was regarded as good.

Peculiar Disappearance.

J. D. Runyan, of Butlerville, O., laid the peculiar disappearnce of his painful symptoms, of indigestion and billousness, to Dr. King's New Life Pills. COTTON MARKETS.

New York, August 4.—The cotton market was less active than yesterday, sales being estimated at about 500,000 bales, but showed continued nervousness and irregularity with the net change trifling. The opening was steady, unchanged to 6 points lower in response to lower cables, good weather and a renewal of the bear pressure noted late yesterday. There were a good many overnight buying orders in the hands of wire and commission houses that had been attracted by the August bureau, however, and shortly after the opening prices advanced to about 2@4 points above last night's finals on the active months. On this trifling bulge, leading bear traders sold very aggressively, and soon filled up the demand, afterwhich prices broke severely, catching stop orders on a scale down. Around 10.39 for October or about 20 @24 points net lower covering and persistent buying for the account of powerful longs rallied the market, and the close was very steady at a net decline of only 3@5 points. Private wires from the South reported very small spot offerings but according to official reports the markets were about 1-8@5-16 lower. Liverpool cables stated that Lancashire spinners were yielding to demands of operatives and no strike was probable.

NEGRO DESPERADO KILLED.

He Murdered Two Men and Shot Four Other Persons.

Little Rock, Ark., August 3.—A special to the Gazette from Lewisville, Ark., says:

After killing two persons, seriously and probably fatally shooting two others, one a woman, and less seriously shooting two more, Ike Kinney, negro, was killed in a river bottom at Doella, six miles south of Lewisville at noon to-day after a hot fight with a posse of citizens that had surrounded him. His record of crime for twenty-four hours is:

August 2 (morning), killed a negro at Stamps; August 2 (afternoon), killed E. R. Ferguson, claim agent of the Louisiana & Arkansas railroad, member of posse three miles from Stamps; August 3 (3 A. M.), seriously shot Mrs. Stewart, of Greensburgh, Texas, and Mr. Stewart, her husband; August 3 (noon), shot Alvil Barnam through the neck and shot a finger off one of C. F. Nash's hands.

SPIRITS TURPENTINE.

On account of the recent scandal connected with the water-works contract and construction at Charlotte, the Observer of yesterday says: Yesterday afternoon Mr. C. H. Campbell resigned his position as superintendent of the city water-works. Constructing Engineer W. T. McCormick has left the State.

—Kenansville News: The tobacco growers are all busy now curing the weed. Night after night they can be seen sitting up while curing all night long. The crop is generally fair and good prices are hoped for again. Duplin county has good tobacco markets, and this paper sees no reason why our farmers can't sell all of their crop at their home markets. Our prices last year were the best.

—Kenansville News: By a steady and substantial growth, Warsaw bids fair to become one of the leading towns in this section. Everything points to the town's bright future and the News is indeed glad to make this notice. The new dwellings, stores, the tobacco warhouse, the railroad accommodations and a good school are certainly fine illustrations of this town's onward march. The Bank of Warsaw has done a splendid business during the past year. This splendid bank tells the reasons why every man and woman should make deposits now. Dr. H. F. Pierce is one of the most efficient and accommodating cashiers in the State and all the people have the utmost confidence in him. 'Tis no wonder that his last statement was the best in the bank's history.

—A dispatch from Asheville on Thursday says: There is a meat war on here affecting the local dealers and the Armour Packing Company. The local consumers thus far are interested in one phase of the situation—that meats sold by one stall-keeper in the city market, said to be controlled by the Armour Company, have taken a decided drop. Other independent dealers have declined to cut and the charge is made that the Armour Company is attempting to "freeze" out other dealers in the market. It is charged that the stall controlled by the Armour people is retailing certain meats at 12½ cents per pound, while the Armour Company charges the other dealers 16 cents for the same meat. It is also charged that when other dealers offered to buy some of the meats at 12½ cents the stall-keeper refused to sell to them, notwithstanding the advertised price. There is considerable feeling between the meat dealers and it is said the fight is on to a finish.

—The Appalachian Inter-urban Railroad Company, of Hendersonville, has a great project, which, if successfully managed and developed, will connect many of the more important points in Western North Carolina by trolley lines. Henderson county will vote next Tuesday on a bond issue of $50,000, and it is expected to carry by a large majority, as the road would pass through the very best part of the county. Later in the month Polk county will vote on bonds for the same purpose. An effort for $100,000 from Polk is being made. Avery's Creek township, in Buncombe, will vote on $5,000. With Hendersonville as a central point it is proposed to run the following lines: One to Asheville by Fletcher, with a spur line to Fairview, and an other line by Mills river, with spur line to Davidson river, Brevard, Toxaway and Sapphire, and from Asheville a line would be run to Waynesville; a line from Hendersonville to Greenville, S. C., and parallel lines to Chimney Rock, with a loop from there, taking in Columbus, Spartanburg, Gaffney, Caroleen, Rutherfordton and returning to Chimney Rock.

—Washington correspondence, Charlotte Observer, August 3rd: The meantime the charges of graft in North Carolina will most likely receive the attention of one of the Assistant Attorney Generals. Mr. McReynolds, the Acting Attorney General during the absence of Mr. Moody, indicated today that the conduct of the investigation which the Department is making in Western North Carolina would be taken in charge by Assistant District Attorney Robb. It was Mr. Robb who conducted the legal end of the preparation of the cases against Machen and the other offenders against the government in the post-office scandals. What the investigation will disclose is a matter of speculation and it is certain that evidence likely to result in criminal prosecutions will be closely guarded. District Attorney Holton and his office will have charge of such prosecutions as may be made, and he can't be any too vigorous to suit the Attorney General's office, if the charges that have been made are substantiated by the special agents of the Department. It is said the evidence secured so far is very important, and is almost certain to result in indictments.

—Charlotte Observer, August 4th: Mr. Joe Bradshaw, a cotton mill operative of Concord, was killed by an electrical current received from a wire on a post at the corner of Fifth street and the Southern Railway last night about 7:30. Bradshaw and a party of friends were having an open-air confab about things in general, when the blow came. Bradshaw had his hand on the wire that winds around the windlass to raise or lower the street lamp at that point. He must have jerked the wire against a live one and made connection with his body. The windlass wire, which he held or stood against, does not carry a current and such an accident is usual. The wire could have been thrown in contact with the city light, telegraph or other wires near the post on which it follows. The free hand of the victim was on the body of a friend, Hich Hilton, when the shock came and Bradshaw fell backward bearing Hilton down with him. The wire was out of the windlass drum when the crowd gathered. There are several theories about the accident, the cause and so forth. Death was instantaneous. Bradshaw did not know what struck him. Hilton declares that he saw fire fly from Bradshaw's shoes as he fell. Physicians were summoned, but their efforts were in vain. Brakshaw leaves a wife, who was notified at her home in Concord of the accident.

BRITISH FLEET IN THE BALTIC.

There Will Be No Hard Feelings With Germany.

By Cable to The Morning Star.

London, August 3.—The forthcoming visit of a British fleet to the Baltic sea appears more than likely to mark the beginning of more cordial relations between Germany and Great Britain, instead of, as has been suggested in some quarters, adding to the friction now existing.

Ernest George Prettyman, Secretary to the Admiralty, today in reply to questions, said definitely that no protests regarding the visit of the fleet had been received. Friendly comment on the pending cruise from German Baltic ports creates the belief that it will help along King Edward's desire for good relations between Germany and Great Britain, and the announcement of Emperor William's support of the candidacy of Prince Charles of Denmark for the Norwegian throne is accepted as an indication that the German ruler proposes to work in the same direction.

The report is revived that Emperor William will meet King Edward during the latter's forthcoming trip to Marienbad.

HAPPY RESULTS.

Have Made Many Wilmington Residents Enthusiastic.

No wonder scores of Wilmington citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Wilmington by Doan's Kidney Pills.

J. E. Bloodworth, residing at 30 South Front street and employed at 123 Princess street, says: "I used Doan's Kidney Pills and they have proven to be a very valuable remedy, and I believe I am safe in recommending them. My back and kidneys have given me great trouble. I thought I had rheumatism. I had shooting pains through my back and sides which often made me yell right out. If I stood, sat or lay dawn or kept in any one position for any length of time, it was almost impossible for me to move on account of the great pain. I heard some one speak of Doan's Kidney Pills, and I sent down to Bellamy's drug store and got a box. They completely removed the pains. They are without doubt, a valuable remedy for backache."

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

HARDIN'S PHARMACY, Special Agent.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief and in a short time I was entirely cured." Guaranteed at R. R. Bellamy's drug store; price 50c. **

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the **bulk** coffee he sells you. How *can* he know, where it originally came from, how it was blended—**or with what**—or when roasted? If you buy your coffee loose by the pound, how *can* you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get **one full pound** of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

NOTICE—LAND SALE.

By virtue of the authority vested in me by a decree of the Superior Court of New Hanover county rendered at June Term, 1905, in an action entitled L. S. Catlin v. The Palmetto Company and William Kraft, I will offer for sale at public auction to the highest bidder for cash at the Court House door in Wilmington on Monday, August 7th., at 12 o'clock, noon, the following described property, to-wit: a certain lot, tract, parcel or piece of land usually designated as the "Known factory," situate, lying and being in Cape Fear Township, County of New Hanover, said State and bounded and described as follows:

Beginning at a marked Sweet Gum tree forty (40) feet westerly from the Northwest corner of the bridge known as Little Bridge, running thence N. 34 degrees 30 minutes E. one hundred and eighty-two (9,182) feet to a stake on the Western margin of the County Road; thence with the Western margin of said road N. 52 degrees E. five hundred and nine (509) feet to a stake on the Western margin of said road; thence across the field N. 46 degrees 45 minutes W. nine hundred and ninty (990) feet on the margin of Smith's Creek; thence up the margin of said creek about S. 35 degrees W. about four hundred and ten (410) feet to a stake in the margin of said creek; thence S. 51 degrees E. four hundred and sixty three (463) feet to a stake; thence S. 31 degrees 30 minutes four and twenty-six feet (426) feet to marked Water Oak, tree on the margin of the Creek Easterly about three hundred and eight-two (382) feet to the beginning, the same being a part of the plantation well known as "Sans Souci"; together with all buildings, machinery, tools and other property thereon and now owned by the party of the first part, pertinent to or intended for the use and operation in the business of the manufacture of Cable Coatings, Turpentine, Oils, Charcoal and other products of the Long Leaf Yellow Pine tree, and also and including the platboats for carrying wood or merchandise, etc., together with all the furniture, desks, chairs, safe, letter press, labortory equipment, etc., and all appurtenances thereto belonging. Also all the right title and interest of the parties of the first part in and to all that free and perpetual right of entry, right-of-way and easement at any and all times, for purpose of surveying, locating, constructing, operating, maintaining, improving and repairing a line of Rail Road, leading from the lands above described of the parties of the first part, to and connecting with the Wilmington and Weldon Railroad in, over and through a strip of land twenty (20) feet in width, that is to say, ten (10) feet wide on each side of and measured at right angles to the centre of the tract of said railroad as the same shall be located and constructed which said strip of land is part of a tract of land belonging to the County of New Hanover and situate on the North side of Smith's Creek, and lying between the Duplin or County road, and the Wilmington and Weldon Railroad, being the same premises, right, title and interest therein conveyed by the Board of Commissioners for the County of New Hanover of the State of North Carolina to The Imperial Pine Product Company, by a deed bearing date March 6th, 1892 and recorded in said County Register's office on March 31st, 1892 in book 11, pages 432, etc. Also all the right, title and interest of the parties hereto of the first part in and to the copy-right trademark — IMPEROLENE.

Terms of sale are cash upon confirmation of sale by the Court. This, July 7th, 1905. F. L. HUGGINS, Commissioner.

BRIGHTER BUSINESS OUTLOOK.

R. G. Dun & Co., See Prosperity In All Directions.

By Wire to The Morning Star

New York, August 4.—R. G. Dun & Co's weekly Review of Trade tomorrow will say:

Busines continues to expand in a wholesome manner that promises well for the future. Reports from the leading branches of manufacture are unanimous in telling of an increasing volume of orders, and the percentage of idle machinery steadily diminishes. Textile plants make the best returns, closely followed by footwear factories and some divisions of the steel industry are engaged so far ahead that capacity is extended. Better prospects for the crops removes the only handicap that impedes the revival of trade, and favorable weather for a few weeks will assure unprecedented production in the aggregate, though the yield of cotton will fall considerably behind last year's. The month of June made a most encouraging exhibit in so far as statistics available, liabilities of failures being smaller than in any month since April, 1901, and railway earnings surpassing last year's by 9.1 per cent. Foreign trade at this port for the last week shows of $1,776,184 in exports and $1,608,564 in imports as compared with the same period of 1904.

Failures this week in the United States are 232 against 214 last week, 193 the preceding week and 230 the corresponding week last year, and in Canada 26 against 27 last week, 23 the preceding week and 18 last year.

TWO CONVICTS LYNCHED.

Killed Their Guard and Mob Hanged Them Last Night.

By Wire to The Morning Star

Mobile, Ala., August 4.—A special to the Register from Hattiesburg, Miss., says J. G. Smith, city convict guard, was assassinated there this morning by two negroes of his gang, William Horn and Kid George. Horn made his escape but George was captured together with a negro named Ed. Lewis, alias Brock, who had struck the shackles from the murderers. They were placed in the city jail, after Brock had been severely whipped to force him to tell where Horn had gone but he refused.

Tonight at 9 o'clock a mob gathered and quietly took the two negroes from the jail and hanged them to a bridge in the glare of the electric light. Brock fought and cursed the mob but George begged for his life. A posse is in pursuit of Horn who was last seen fifteen miles from Hattiesburg, passing through McLaurin.

VISIBLE SUPPLY OF COTTON.

Secretary Hester Makes It Double That of Last Season.

By Wire to The Morning Star

New Orleans, August 4.—Secretary Hester's statement of the world's visible supply of cotton issued to-day shows the total visible to be 2,907,462, against 2,984,801 last week and 1,494,215 last pear. Of this the total of American cotton is 1,805,462 against 1,872,801 last week and 659,215 last year, and of all kinds, including Egypt, Brazil, India, etc., 1,102,000 against 1,112,000 last week and 835,000 last year.

Of the world's visible, supply of cotton as above there is now afloat and held in Great Britain and Continental Europe, 1,576,000 against 863,000 last year; in Egypt, 73,000 against 75,000 last year; in India, 730,000 against 401,000 last year and in the United States 528,000 against '155,000 last year.

ATTEMPT TO BLOW UP A SHIP.

Capped Fuses Discovered on Vessel Far Out at Sea.

By Wire to The Morning Star.

San Francisco, August 4.—An attempt to blow up a ship in mid-ocean has been reported by Captain C. Touze of the French ship Asnieres, which has arrived here from Swansea, Eng., loaded with coal. He left that port in January last, and six weeks later, when far out at sea, a dozen capped fuses such as are used by miners to explode charges of dynamite were discovered in the hold of the ship among the coal. Had one of the fuses become ignited by a shock in that part of the hold where coal gas had accummulated the ship would undoubtedly have been blown to atoms. Two or three of them had exploded, but fortunately at points where there was no gas and consequently no damage was done. The presence of the fuses among the coal was discovered only by accident.

WINGATE IS RELEASED.

Sewing Machine Agent Charged With Attempted Criminal Assault.

(Special Star Telegram.)

Raleigh, N. C., August 4.—Robert Wingate, a Singer sewing machine agent, who was brought here from Tarboro Saturday and committed to Wake jail for safe keeping, was released to-day on $1,000 bond given by his friends in Tarboro. He is charged with criminal assault on a Tarboro woman to whom he was trying to sell a sewing machine. The sheriff at Tarboro feared an attempt would be made by the woman's friends to do the prisoner violence. However, he was sharply criticized for it on the ground that there was no danger whatever, and the removal was a reflection on the community.

By Wire to The Morning Star.

Asheville, N. C., August 4.—In the presence of 2,000 people Professor Ono, Japanese instructor of Jiu Jitsu at the Annapolis Naval Academy, defeated "Big Tom" Frisbee, of Madison county, North Carolina, in a mixed wrestling match at the auditorium tonight. The men were matched for the best two out of three falls. Ono securing the first fall in one hour and twelve minutes and the second in 35 seconds. Both falls were obtained with a strangle hold, Frisbee falling to the mat exhausted at the end of the second bout. It was brute strength against Oriental science.

President Issues Order.

Washington, August 4.—President Roosevelt tonight forwarded to Surgeon General Wyman, of the public health and marine hospital service, a telegram from Governor Blanchard, of Louisiana, requesting that the United States government take control of the yellow fever situation in New Orleans. The President directed the Surgeon General to take every step in his power to meet the situation in New Orleans and to notify him what further action is advisable and possible for the Federal authorities to take. The telegram in full is as follows:

"Have received the following telegrame from Governor Blanchard, of Louisiana: 'At a joint meeting of representatives of all commercial bodies of the city of New Orleans and other prominent persons, at which were present the mayor of the city, the State health authorities and the president of the New Orleans Parish Medical Association, the following resolution was adopted:

"'That this meeting endorse the proposition to ask the United States government to take control of the yellow fever situation in New Orleans and that the Governor of the State and the mayor of the city be requested to take immediate steps to carry this proposition into effect; further that the hearty co-operation of the State and city governments and the State and city health boards and the Parish medical societies, and of the merchants and people generally, be pledged in such action as may be taken by the government.

"'I am requested by the mayor of the city, the president of the State and city board of health and by a committee of prominent citizens to transmit the above requistion to you and request you to take over on behalf of the Federal government, through the proper channels, the yellow situation at New Orleans. This I now do and urge speedy action on your part.

(Signed)

"'N. C. BLANCHARD, Governor of Louisiana."

"Please take every step in your power to meet the situation at New Orleans and comply with the request of the Governor and the other authorities and notify me what further action is advisable and possible for the Federal authorities to take. Would like full report from you as to what should be done. Please confer with the surgeons general of the army and navy, if in your judgment it is wise.

(Signed)

"THEODORE ROOSEVELT."

Dr. Wyman has acknowledged the President's telegram and will make a report to him tomorrow.

Federal Control Asked.

With no intention of admitting the fever situation to be beyond control but in the hope of reviving confidence here and elsewhere in the South, official and business interests today decided to send a request to President Roosevelt to have the United States government assume full charge of the struggle now in progress to wipe out yellow fever from New Orleans and Louisiana. The public approves the action taken. Expectation is that within the next two days Surgeon General Wyman, with all the resources of the government will be enlisted actively in the campaign.

The decision to ask the Federal government to take control was reached at a meeting of the city officials and others held late today at the cotton exchange. It was the concensus of the meeting that government control would restore confident throughout the other States in the South and the belief was expressed that Surgeon General Wyman would be able to send a force of physicians to New Orleans thoroughly because of their experience and unquestionable facilities to enforce a scientific campaign against the fever.

When local health officers first took charge of the situation it was hoped that the fever could be stamped out within a reasonable time but the infection has spread, and so frightened have the people become in the South over the increase in the number of cases that New Orleans is threatened with a serious paralysis of trade by reason of radical quarantines. A telegram signed by the mayor and others present, was addressed to Governor Blanchard, telling him of the action taken.

At a conference at the city hall it was decided that Mayor Behrman should issue a proclamation requiring every business house in the city to close on Wednesday so that employes might take a hand in the general cleaning movement. Merchants are to be asked to furnish carts to carry away refuse. A thousand carts will be required in the work. A special appeal also is to be addressed to householders asking them to co-operate in the sanitary campaign by thoroughly cleaning back yards.

Today the board of health instituted a new rule, requiring its inspectors to make prompt report of cases. To that order was due the fact that twenty new cases for today were announced early in the afternoon. Yesterday the 3 o'clock report showed seven new cases and two deaths, while at 6 o'clock there were reported 54 cases and five deaths. The inspectors had turned their cases in bunches late in the evening and the evening report had a disquieting effect on the public which had been led by the forenoon report to believe that the situation was improving.

Hundreds of persons are temporarily moving from New Orleans to St. Tammy Parish, the only near haven to which they can go. Yellow fever has never developed in St. Tammy Parish during the most serious epidemic.

A thorough inspection of the red light quarter today disclosed not a suspicious case of fever.

Business houses are feeling the effect of the quarantine. There has been a reduction in business and trade is quiet.

Suituation in Mississippi.

Jackson, Miss., August 4.—Governor Vardaman made public today the following statement regarding the yellow fever situation:

"Everything is serene in Mississippi. Only the two sporadic cases previously reported have occurred. The quarantine regulations promulgated by the State Board of Health are being vigorously enforced. No embargo has been placed on merchandise from anywhere and upon proper evidence that the holder of a health certificate has not been in an infected district for ten days, he can enter the State.

"The much talked of armed conflict between Mississippi and Louisiana might properly be described as sound and fury, and as signifying nothing, but we are pursuing resolutely the policy inaugurated by the State Board of Health based upon modern scientific developments to keep the fever out of this State.

"The report that I have called out the State militia is absolutely untrue. There are members of the State militia performing the duty of guards, but they are not acting in a military capacity."

Kentucky Welcomes Refugees.

Louisville, Ky., August 4.—The board of health has isued a proclamation announcing that Kentucky will be an "open" State as far as refugees from the fever infected district of the South are concerned. The refugees will be subjected to examination, however, and will be detained temporarily in camps which will be established at once near the principal cities and towns of the State.

Dr. Wyman Will Act.

Washington, Aug. 4.—Dr. Wyman will confer tomorrow with Secretary Shaw, the surgeons in the marine hospital service, and others, as to the best course to pursue on Governor Blanchard's requests and on their conclusions Dr. Wyman's report to the President will be based. There are several precedents of comparatively recent date which warrant the government in taking charge of the whole yellow fever situation, notably at Brunswick and in the epidemic at the National Soldiers Home at Hampton, Va., in both of which cases the marine hospital service practically took charge of affairs until the disease had been stamped out. The officials of the marine hospital service are anxious to co-operate in every way with the local authorities in fighting the disease and a cordial acquiesence in the request made by Governor Blanchard and the citizens of New Orleans is anticipated. The government has at its disposal what is known as an epidemic fund available, however, only in part for occasions like that at New Orleans and expenditures from that fund are usually supplemented by these from local quarters.

Dr. Wyman declined tonight to discuss what the probable nature of his report to the President would be.

Charleston Quarantines.

Charleston, S. C., August 4.—Mayor Rhett has proclaimed a quarantine against yellow fever points to take effect Sunday August 6th. No passengers will be permitted to enter the city unless they can established beyond question that they have been out of the infected district for ten days. Inspectors have been details at all junction points to examine trains.

Philadelphia Takes Precaution.

Philadelphia, ugust 4.—A meeting of the State board of quarantine physicians was held here to-day in the office of Dr. H. B. Heller, State quarantine physician, and measures for guarding against yellow fever in this section were adopted. An expert will visit all vessels arriving from the infected district and a thorough search will be made for mosquitoes which carry the disease. Vessels will also be fumigated.

Four More Suspects In New York.

New York, August 4.—Four fever suspects were taken from the steamer Neuces from Galveston to-day at quarantine and transferred to Hoffman Island for observation as to the cause of abnormally high temperatures. One was a steerage passenger and the others members of the crew.

GEORGIA AGAINST FLORIDA.

Conflict Over Arrest of Florida's Officer.

By Wire to The Morning Star.

Tampa, Fla., August 4.—On account of the arrest of Dr. Digget, agent of the Florida State Board of Health, by the mayor of Folkstone, Ga., State Health Officer Porter today instructed Dr. Digget to move the detention camp from Folkstone to Camp Perry inside the Florida line. The action of the Folkstone mayor in arresting Dr. Digget may cause a controversy between the Florida and Georgia authorities. So far as Dr. Porter has been informed, Digget was arrested for stopping passengers.

Dr. John Guiteras, head of the Cuban sanitary department who arrived here last night, looked over the situation here today and expressed great satisfaction at the decidedly favorable conditions existing with regard to the yellow fever. Dr. Guiteras is a firm believer in the mosquito theory of yellow fever infection, which he says he has been fully convinced from proof in Cuba.

BATTLE BEGINS ON EVE OF PEACE

Arrangements for Reception of Russian and Japanese Envoys by Roosevelt

FUNCTION OCCURS TO-DAY

Precaution to Avoid Appearance of Partiality — Russia Gratified—Great Battle In Manchuria Appears to Be Inevitable.

By Wire to The Morning Star.

New York, August 4.—Sergius Witte and Baron Rosen, the Russian peace envoys, attended high-mass and a special Te Deum service to-day, which is the date, in the Eastern Christian calendar, of St. Mary's Day. It was also the name-day of Her Majesty, Maria Feodorovna, the Russian Empress Dowager. The services were celebrated at the St. Nicholas Russian Orthodox Cathedral. At the conclusion of the religious service Mr. Witte and Baron Rosen started for President Roosevelt's summer home at Oyster Bay..

Visit to President.

Oyster Bay, August 4.—Sergius Witte and Baron Rosen, the envoys of the Emperor of Russia to the Washington peace conference, were guests to-day of the President and Mrs. Roosevelt at Sagamore Hill. They arrived in Oyster Bay via the Long Island railroad at 12:20 P. M. They were unaccompanied by any other Russian official. As the envoys alighted from their car they were met by confidential messengers from the President's official household and escorted to one of the President's carriages sent to the station to convey them to Sagamore Hill. A considerable crowd of residents of the village had assembled at the station to see the distinguished visitors.

Assurance was given here that the visit of the Russian envoys did not differ in any material respect from that of Baron Komura and Minister Takahira of Japan last week. When Mr. Witte and Baron Rosen reached Sagamore Hill and the former had been presented to the President, Baron Rosen entered a vigorous protest personally to the President against the annoyance to which they had been subjected by the photographers at the Oyster Bay station. The President called two secret service officers and gave them direction to go to the station and endeavor to avert the annoyance on the return of the envoys to take a train for New York.

Witte Stuck on Teddy.

New York, August 4.—Mr. Witte and Baron Rosen reached the St. Regis Hotel, on their return from Oyster Bay at a quarter after 6 P. M. Mr. Witte made the following statement about the impressions he had received of the President on this the first time he had seen him:

"I have conceived the highest opinion of Mr. Roosevelt. I was particularly struck by his energy and broad-mindedness. I feel it is good for the United States to have so distinguished a man at the head of its executive and I fully appreciate the reasons that led to the choice of him for so responsible and honorable a post. I do not say this with any desire to flatter the President or the American people. It is my sincere conviction."

Reception for the Envoys.

Oyster Bay, August 4.—Final arrangements were completed to-night for the reception by President Roosevelt of the Russian and Japanese peace envoys to-morrow. The President and the State and Navy Departments will unite in extending a cordial greeting to the plenipotentiaries and to facilitate in every possible way their mission of peace. Every honor due to their rank will be paid to the envoys and the cordiality of the greeting by the President on behalf of the American people will leave nothing to be desired. These ceremonies concluded, a luncheon will be served on the dispatch boat Mayflower. In order to avoid any unusual question of precedence, the luncheon will be a buffet collation. Thus will be avoided the seating of the guests at table with the President. The party in attendance at the luncheon will number about 25. Shortly after the luncheon, President Roosevelt will take leave of the envoys and will return to shore in a launch.

From the Mayflower the Japanese envoys and their suites will be conveyed to the dispatch boat Dolphin, which will be anchored nearby, the Russian envoys and their suite remaining on the Mayflower. On these ships the two sets of envoys will be conveyed to Portsmouth, N. H., where the sessions of peace conference are to be held. Soon after the departure of the guests, the Mayflower and Dolphin will weigh anchor and start on their journey convoyed by the cruiser Galveston.

Russia Is Pleased.

St. Petersburg, August 4.—6:20 P. M.—The newspapers generally express satisfaction with the unexpectedly cordial reception received by M. Witte in the United States, in which public opinion all along has been painted as being favorable to Japan, and a more optimistic tone regarding the chances of a successful outcome of the neace negotiations is manifested. With a few exceptions they find themselves in thorough sympathy with the position of M. Witte, as expressed in interviews with him on his arrival in New York.

Great Battle Expected.

Tokio, August 4.—It is reported that the advance guards of the hostile forces south of the Tumen river are within rifle range. An early conflict is regarded as inevitable.

Japanese Advance Checked.

Godzyadani, Manchuria, 4. — Dispatches received from Korea report that the Japanese have begun a simultaneous advance from Kuanchoderi against the Platsabang passes, but that both columns were checked under pressure of the Russian advance detachments. The Russian losses, the dispatches say, were insignificant.

Japanese warships are reported to be cruising off the mouth of Peter The Great Bay, on which Vladivostock is situated, their lights often being visible from Russian Island.

Almost tropical rains are falling in Manchuria and the hilly regions are impassable for trains of artillery. Every mountain path is a torrent and every valley a quagmire. Important operation apparently will be impossible for a long time to come.

The alternation of rains and fervid sunshine has a depressing effect on the health of the army.

GOVERNMENT OWNERSHIP.

Senator Scott, of West Virginia, Convinced It is Not the Thing.

Washington, D. C., August 4.—After an extensive trip in Europe, Senator N. B. Scott, of West Virginia, has returned to this country more than ever convinced that government ownership of railroads is not a success.

When on the return voyage on the Wilhelm II, from Cherbourg, France, he went into the subject very extensively with an expert engineer, who had spent two years in Australia for the express purpose of studying the same subject. Using the data and information thus supplied, Senator Scott has come to the conclusion that the government ownership plan is not desirable.

"The debt of Australia is as big as the debt in the United States," he said, "and leakages in one department illustrate how the others are run.

"Take the railroads, for instance, the government places the control of the interests in the hands of a few directors. These men have not the personal interest that would be evinced by a directorate composed of men who would draw dividends if the road were successful and would lose money in the contrary case.

"I understand it is extremely difficut even to secure a quorum at the directors' meeting. As a result of this lack of interest things are run in a slip-shod manner, accounts are not too carefully scrutinized, and as a consequence much money is lost.

"It nearly always is the rule that the man whose pocketbook is the most nearly affected is the one who will look most carefully after the corporate interests in which his capital is invested. Private ownership make for public prosperity."

Mr. Crowson Resigns.

Mr. W. J. Crowson, who for the past several months has been night clerk at The Orton and who has made many friends among the Wilmington, as well as the travelling public, has resigned his position and will leave Monday, returning to his old home at Wadesboro where he has accepted a very flattering offer from Messrs. Parsons & Hardison, wholesale grocers of that town. Mr. Crowson will probably be succeeded by Mr. Julian R. Clements, of the Seashore Hotel staff. The friends here of Mr. Crowson—and they are many—will regret to know of his contemplated departure.

Charged With Drawing Knife.

W. Blake, a young electrician of the city, was arrested yesterday on a warrant from Justice Furlong, charging him with an assault with a deadly weapon upon Mr. J. O. Brock, of the Southern Electric Company, on Princess street. Mr. Blake went into the salesroom of Mr. Brock and some words ensued between the two, during the progress of which Mr. Brock alleges that Mr. Blake drew a knife. Mr. Blake claims he merely had the knife open in his hands with no purpose to use it, though Mr. Brock had threatened to whip him. The case will come up before Justice Furlong at 10 o'clock this morning.

Excursion Notes.

An excursion train of seven coaches brought 360 excursionists from Enfield, N. C., yesterday arriving at 1 P. M., the delay being on account of a disabled engine at Goldsboro. They returned last night after a pleasant day at the seashore and in the city. Today there will be two other big excursions here—one from Elrod, N. C., and one from Conway, S. C., both over the W. C. & A. railroad. On Monday there will be an excursion here from Stedman, N. C., and on Tuesday one from Goldsboro to Wilmington and one from Burgaw and points north to Richmond, Va.

Negroes Returned to Lumberton.

Deputy Sheriff A. C. McLeod arrived in the city yesterday from Lumberton and took back with him in the afternoon Arthur Burden and Mack McLeod, the negro jail-breakers from Robeson, captured here early Thursday morning. Deputy McLeod says the sheriff has thus far captured nine of the twelve escapes. In this he has been especially fortunate as the negroes who escaped scattered in every direction and had an entire night before them to get away. Officers Leon George and I. F. Huggins will receive a reward of $25 each for the capture of the prisoners here.

Funeral of Mrs. Gillespie.

The remains of the late Mrs. George S. Gillespie, accompanied by members of the family and Rev. R. W. Hogue, rector of St. James' parish of Wilmington, arrived on Thursday afternoon's train from Lake Waccamaw and were taken immediately to Oakdale cemetery where brief services following others at the Lake, were held by Rev. Mr. Hogue from the lodge. A number of beautiful floral tributes were laid on the casket by loving hands. The pall-bearers were Messrs. Jos. W. Yates, J. D. Nutt, George Crow, Sam Potts, Dr. L. H. Love and Dr. Thos. M. Green.

ANARCHISTS TO HOLD CONGRESS

Delegates From All Countries to Meet in Boston.

By Wire to the Morning Star.

Boston, Mass., Aug. 4.—According to information received by the police of the North End, Boston, instead of Paterson, N. J., has been selected as the meeting place of this year's international congress of anarchists. Representatives from the anarchists colony of Lynn have been busy distributing circulars throughout the North End, which, although not giving definite information about the meeting are interpreted by the police as the advance propaganda of the convention. The police will endeavor to defeat the plan to hold the convention here.

A Touching Story

is the saving from death, of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At R. R. Bellamy drug store; 50c and $1.00 guaranteed. Trial bottle free. **

Crown Prince Gustave of Sweden, arrived in Copenhagen, Demark, yesterday to discuss with King Christian the question of the Norwegian throne.
